

Dineromail Payment Gateway Module for Prestashop

Tested in Prestashop versions:

1.3.1.1 - 1.3.7.0, 1.4.1.0 - 1.4.11.0, 1.5.0.17 - 1.5.6.2

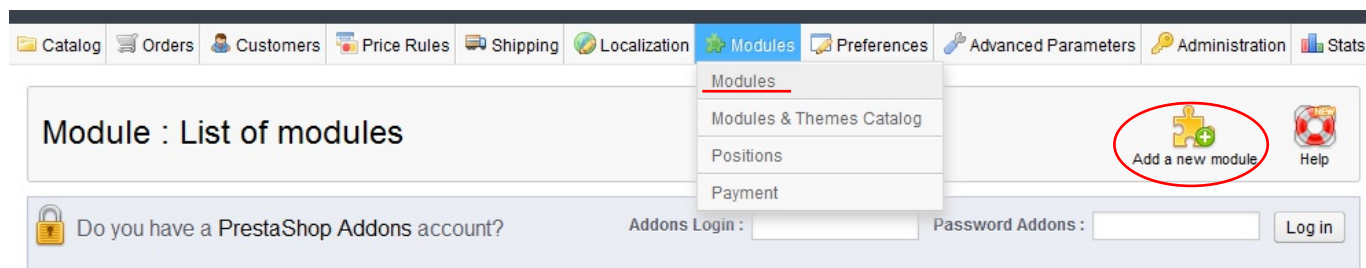

Version: 1.50

Author: Rinku Kazeno

Support: development@kazeno.co

Thanks for purchasing my **Dineromail Payment Gateway Module for Prestashop**. Here's how to install and use it:

Installation

1. If your Prestashop version allows it, you can add the module automatically from your **Back Office** by going into the **Modules** tab, selecting **Add a new module**, and uploading the zip file from your web browser.

If you're using an older Prestashop version, or are having problems with the automatic installer, you need to extract and upload the **dineromail** folder (inside the zip file) to your **Modules** folder inside your Prestashop directory by FTP.

Description : Accept Dineromail payments through the IPN 2 interface
[Configure](#) [Disable](#) [Reset](#) [Delete](#) [Mark as Favorite](#)

That's it, your module is now installed! You should get a warning saying the module isn't configured yet, so let's do that now.

Configuration

1.0 Before configuring the module, make sure that the Currency for your Dineromail account country *is currently installed and enabled in your shop*. If in doubt, check the **Currencies** section of the **Localization** tab (Prestashop 1.5) or the **Currencies Restrictions** section of the **Payment** tab (Prestashop 1.4).

1.2 Fill out your **Merchant ID** and select the **Country** of your account. Don't worry if the wrong currency is selected for the module, as it will be adjusted automatically when you save your changes. You can also select or remove Payment Methods and Installments you're willing to accept.

4. Integration

Additional fee

Additional fee you want to charge customers who choose this payment option. Can be either a fixed amount (without the percent sign) or a percentage (ending with the percent sign). Set to either 0.00 or 0.00% to disable.

1.3 If you wish to charge an **Additional fee** to your customers who select Dineromail as their payment method, you can add it here. If you put in an amount it will get automatically added to all Dineromail orders. If you put in a percentage (followed by the % sign), the fee will be added as a percentage of the total amount to be paid by the customer. If you don't wish to charge an additional fee, you can leave it as either 0.00 or 0.00% .

Configurar IPN

DineroMail te ofrece un nuevo servicio que te permite recibir notificaciones de manera inmediata sobre los movimientos de tu cuenta. Sólo debes definir e informar a DineroMail una URL y una contraseña para poder acceder a la misma.

Para descargar el manual IPN haz [Click Aquí](#)

Para leer el manual necesitas [Adobe Acrobat Reader](#)

Ingresa la URL:

Máximo 500 caracteres alfanuméricos. Ej: [mexico.dineromail.com/ipn/notificador.asp](#)

Contraseña:

Mínimo 8 caracteres alfanuméricos. Asegúrate de que sólo tú la conozcas

Reingresa contraseña:

Habilitar IPN ☒ Haz click para habilitar el IPN

Aceptar

IPN Password

Reminder: This is NOT your account password.

You need to configure your IPN settings in the "Profile" section inside your Dineromail account. In there you'll be asked to create a new password for the IPN connections. once you do it and enable IPN, insert above the IPN password you just created. For the callback URL you're asked for use the following:
http://test.kazeno.co/Prestashop_1.5.6.0/index.php?fc=module&module=dineromail&controller=validation

1.4 Copy the URL you're given at the **Integration** section. Log into your Dineromail account in a new browser window, go to your **Profile**, and click on **Configure IPN**. Once in the **Configure IPN** screen, paste the URL you just copied into the **Input the URL** box. Create a new password (preferably different from your store and your Dineromail account ones) and input it into the **Password** boxes, as well as the **IPN Password** box of the **Integration** section. Check the **Enable IPN** checkbox and click on **Accept**.

Pending Order Status ==Create a new status==

Status Name Awaiting Payment

Status Color #5ff77

This is the status that will be assigned to incoming orders marked as "pending". You can create a new status by selecting "Create a new status" and naming it something like "Awaiting Dineromail Payment"

Save

1.5 Return to the Prestashop browser window. Select the **Pending Order Status** you wish to use for pending payments; **if you haven't created one yet**, select **==Create a new status==** and two new fields will appear. Write a *name* for the new status and select a *color*.

Finally, click **Save**. Hooray, you just finished configuring this module!

Usage

Once you have enabled and configured the module, your customers will get the option to pay using **Dineromail** when they Checkout. When they press "Pay" they will be taken to Dineromail's servers to process their payment.

ID	Reference	New	Customer	Total	Payment	Status	Date	PDF	Actions
27		-				-	From To	--	--
27	BCSTPNUAQ		p. prueba	35,76 \$	Dineromail	PENDING 2	01/28/2014 16:43:23	--	

When a customer completes an order using **Dineromail**, its **Status** will be set to "Awaiting Dineromail Payment" until the system receives an IPN notification from Dineromail's servers that the order's status has changed, in which case it will query Dineromail's servers to get the updated transaction data. If the order has been paid, the system will change the **Status** to "Payment Accepted".

Since the Dineromail API doesn't return the cart contents when notifying of a new order, **ORDERS MADE THROUGH THIS PAYMENT METHOD SHOULD NOT BE CONSIDERED SECURED** since a hacker could tamper with the cart contents when placing an order. If the Dineromail transaction's amount doesn't match the order amount, it will be changed to Error Status, and a warning will be displayed in the Invoice section of the order, showing its Dineromail transaction number. In that case, check your Dineromail account for any discrepancies.

Final notes

I hope you found this module easy to use, and I especially hope it can help your online store to grow. If you liked it (or if you didn't), rate it at the [Prestashop Addons Store](#) and let the world know, I would love to read your opinion.

As a customer, you have access to all future updates of this module at no extra charge from your Prestashop Addons account. Remember that if you have any problems, questions or suggestions, you can always contact me at my e-mail:

development@kazeno.co

If you're reporting a problem, please include the Prestashop version of your store, as well as the version of this module you're running.

Happy selling!
